INVITATION

Module 1:
Introduction of bowel ultrasonography

Location:
Städtisches Klinikum Lüneburg
Klinik für Allgemeine Innere Medizin & Gastroenterologie
Bögelstraße 1
21339 Lüneburg, Germany

 Organisation:
Competence Network Intestinal Diseases
Hopfenstraße 60
24103 Kiel, Germany
Raimonda Gettkowski
Phone: +49 (0) 431 592957 4153
Fax: +49 (0) 431 592957 3988
course@bowel-ultrasound.org

Further information:
Chief Physician Prof. Dr. med. Christian Maaser
Christian.Maaser@klinikum-lueneburg.de
Phone: +49 (0) 4131 772246

Workshop fee is 250,- EUR, which includes hotel accommodation, catering, dinner and handout.

Workshop is supported by sponsors:

AbbVie
Abbvie Deutschland GmbH & Co. KG
(15.000 EUR)

Takeda Pharma Vertrieb GmbH & Co. KG
(15.000 EUR)

INVITATION
Dear colleagues,

due to improved technology intestinal ultrasonography is becoming a standard imaging method to detect and to monitor inflammatory bowel disease helping to guide therapy in our patients. Though it is a relatively easy method to learn, starting bowel ultrasonography in IBD centers is often challenging due to missing local expertise. Moreover, intestinal ultrasonography is not being part of the standard gastroenterologic training curriculum in many countries around the world.

The aim of this 3-part training module is to overcome this challenge. During the first part, a 3-day workshop, the standards of intestinal ultrasonography including all potential findings in IBD patients are taught and trained hands-on by experts in the field. The introductory workshop will provide the basis for part 2, an individual 4-week rotation to an expert-bowel ultrasound training center. Finishing this second part will enable you to perform bowel ultrasonography back home in your IBD center. A follow-up meeting during ECCO 2017 in Barcelona will give you the chance of fine tuning your expertise again meeting various international experts in the field.

We are very much looking forward to meeting you in person and helping you to become another expert in bowel ultrasonography!

Please feel free to contact us to give you more detailed information on this 3-part training module.

Torsten Kucharzik and Christian Maaser as local organizers of the first meeting on behalf of the IBUS group.

Friday 4th, November 2016

02:00 p.m. Welcome and introduction into the training curriculum Torsten Kucharzik/Christian Maaser
02:15 p.m. Precourse test Deike Strobel
02:45 p.m. Physics of ultrasonography: How to use and set up an ultrasound machine? Kerri Novak
03:15 p.m. How does the bowel look like in ultrasonography? Anatomy and ultrasound language of the bowel. How to perform an intestinal ultrasound? Christoph F. Dietrich
03:45 p.m. Hands-On Part 1: Hands-on ultrasonography of healthy volunteers: optimize settings, identify normal bowel anatomy, use of Doppler, learn how to document findings
04:45 p.m. Break
05:00 p.m. Mural IBD ultrasound findings: what to look for and how to document Kim Nylund
05:30 p.m. Extramural IBD ultrasound findings: what to look for and how to document Deike Strobel
06:00 p.m. - 07:00 p.m. Hands-On Part 2: Hands-on training ultrasonography using Schallware models: Identify mural and extramural pathology in IBD patients

Saturday 5th, November 2016

09:00 a.m. Complications of IBD, e.g. strictures, fistulas, abscess: tricks for optimization including CEUS and SICUS Emma Calabrese
09:30 a.m. Standardization of documentation Kerri Novak

Sunday 6th, November 2016

08:00 a.m. Is it IBD? Alternative diagnosis to IBD Frauke Petersen
09:00 a.m. Round table Training, Competence and Quality. Organization of ultrasound-IBD unit, establishing competence and quality assurance / How to organize training during part 2? How to start bowel ultrasonography after returning home? Anil Asthana, Kerri Novak and Rune Wilkens
10:00 a.m. Post course test Deike Strobel
11:30 a.m. Closing remarks Kucharzik/Maaser
